## Experience

**2022–present**

**ELECTRONIC GO**

*volunteering as wordpress editor*

I work with a volunteer team consisting of several writers, translators, proofreaders. My role was to publish articles at a specific time, take into account the conditions of seo, work closely with the team, provide ideas and solve site problems that we might encounter.

**2023–2024( present)**

**RAHALATEK**

*Assistant in the company and website manager.*

As the manager, my role involves overseeing the website. I have responsibilities including supervising the website, addressing technical issues, handling customer service when needed, and playing a role in marketing writing, overseeing and monitoring the content creation and marketing process.

**2022–present**

**FREELANCING**

*wordpress Developer*

I have worked on resolving and addressing various issues, enhancing websites, and designing numerous sites across different countries worldwide, including France, Norway, Turkey, Germany, Syria, Jordan, Dubai, and Qatar. Whether it's troubleshooting problems, translating a website, designing it from scratch, or using a theme, I have experience working with popular languages and themes.

**2022–2023**

**MAPS OF ARBAI**

*wordpress Developer*

I had various tasks, whether searching for solutions, adding sections to the website, designing websites, troubleshooting site issues like CSS, making content writing easy and straightforward, adding sections or explanations to content, configuring websites, linking a site to the search console, setting up a site map, robot.txt, site inspection, removing viruses from the site, finding alternative solutions, or thinking outside the box
